SUMMARY

I am student with a strong interest in computer science and programming. I have gained a solid foundation in software development, including programming languages such as Kotlin, Laravel, Flutter, etc. I also have experience in database management, website and android development. I am currently seeking an opportunity to further develop my skills and gain real-world experience in the field of website developer through an internship program. I am eager to contribute my knowledge, learn from experienced professionals, and work with a team to create innovative solutions.

EXPERIENCE

Back End Website Developer   02/2023 - 06/2023
Harapan Bangsa High School

- build Information of student & graduate system website from Harapan Bangsa Highschool with Laravel
- Design the data flow using MySQL as database
- Optimize app performance by minimize the code (clean code)
- Develop the export & import data feature from excel into website using maatwebsite library

Teacher   09/2022 - 09/2022
Harapan Bangsa High School

I obtain an opportunity to teach student from Harapan Bangsa High School. I teach the student to be able to create portfolio website by themself using basic things such as html, css, javascript, and also bootstrap framework

Front End Website Developer   07/2022 - 12/2022
IDN Boarding School

I have been learning and practicing front-end website development for the past year. I have acquired knowledge such as :

HTML CSS, and JavaScript, as well as popular frameworks like React and Angular.

I have had the opportunity to work on several projects where I have implemented my skills to develop visually appealing and interactive websites such as:

- Portfolio Website - A personal portfolio showcasing my skills and projects.
- NgabCoding Website - An E-learning landing page project for website competition.
- Rumah Belajar Landing Page - A Professional landing page contain profile company from Rumah Belajar company.
- MyLaundry Website - An online Laundry store based on website. it Contain landing page, contact form and link redirect to client whatsapp

Participant Competition   08/2021 - 08/2022
IT Fest 2021 & 2022

I gained semifinalist in IT Fest 2021 competition and ITFEST 2022

Android Developer   06/2021 - 02/2022
IDN Boarding School

As an Android Developer with one year of experience, i am proficient in programming languages like Kotlin and Dart, as well as frameworks and libraries such as Android Studio, Retrofit, Room, Jetpack Compose, Glide, and Firebase.

Throughout my journey, I have successfully applied my knowledge and skills to develop a variety of Android applications. Some of the applications I have created include:

- Dzikr & Duaa App

An Islamic App that contain Dzikr & Duaa Feature. Include several Duaa for daily activity & Dzikr after shalat.

- Smart Alarm App

An application that helps user to set alarm for activity routine, and stopwatch for count the time

- Chat App

An application based on flutter that can chat to others people via firebase. The feature include authentication, chat, notification, etc

- Notes App

A simple crud app for learning android. The feature include create notes, edit notes, delete notes, category, sort by, etc.

- Nesion App

A news app based on API from LazyNews that contain The latest Technology News. The feature include notification, update news, category, authentication, etc.

- Weather Forecast App

A weather application that provides real-time weather updates, forecasts, and personalized notifications. Also allows user to set location for the weather latest update.

EDUCATION

Software Development (website & android)   2024
IDN Vocational Highschool - High School Diploma

91 Jakarta Junior Highschool   2021

CERTIFICATES

IDN ITFEST Competition 2022   08/2022 - Present

Sololearn Javascript Certificate   05/2022 - Present

Solid Progamming Dicoding Certificate   05/2022 - Present

Sololearn CSS Certificate   12/2021 - Present

IDN ITFEST Competition 2021   11/2021 - Present

Sololearn HTML Certificate   09/2021 - Present

Programming Logic Dicoding Certificate

Javascript Dicoding Certificate   10/2022 - 10/2025

Web Basic Dicoding Certificate   10/2022 - 10/2025

Data Basic Dicoding Certificate   08/2022 - 08/2025

Software Developer Dicoding Certificate   08/2022 - 08/2025

Dicoding Certificate Android Basic Learning   07/2022 - 07/2025

Dicoding Certificate Kotlin Basic Learning   06/2022 - 06/2025

S K I L L S

Basic Website (HTML, CSS, JS)	Expert	Android architecture (MVVM, MVC)	Advanced
